

**EXPRESSION OF INTEREST
KOIL TANK FARM EXPANSION PROJECT**

The Kiribati Oil Company Limited (KOIL) intends to pre-qualify Contractors for civil engineering and construction of two new fuel storage tanks in Betio, South Tarawa, Republic of Kiribati. The project involves;

- i. Technical and engineering design and specification for two new API650 fuel storage tanks including foundations.
- ii. The two fuel storage tanks (1 x 1.0M liters for Diesel and 1 x 2.0M liters for Petrol) The tanks can either be; assembled onsite over foundations or, delivered on barge and placed on the foundations.
- iii. The tanks handrails and stairways can be constructed of carbon steel and fully externally painted and internally lined or, constructed of duplex stainless steel.
- iv. Design, supply, commissioning of all valves, fittings, piping, mechanical, electrical and civil works associated with the construction of two new petroleum tanks and their connection to existing system.
- v. Upgrading of the existing terminal firefighting and foam proportioning system.
- vi. Modification of current discharge line to accommodate product to product interface.
- vii. Developing of the Environmental Management Plan in line with the requirement of the Kiribati Environment Act

The construction site of the petroleum tanks is located at the existing tank farm (new terminal) at Betio, South Tarawa, Republic of Kiribati.

More details of the EOI can be found at KOIL website (www.koil.com.ki).

This EOI closes on **Friday 29th November 2019 by 4:00PM.**
